

Social Development

Students' social development is shown by their:

- use of a range of social skills in different contexts, including working and socialising with students from different religious, ethnic and socio-economic backgrounds
- willingness to participate in a variety of community and social settings, including by volunteering, co-operating well with others and being able to resolve conflicts effectively
- acceptance and engagement with the fundamental British values of democracy, the rule of law, individual liberty and mutual respect and tolerance of those with different faiths and beliefs; the pupils develop and demonstrate skills and attitudes that will allow them to participate fully in and contribute positively to life in modern Britain (Ofsted July 2014).

We therefore aim to promote social development through:

- co-operation and partnership
- classroom organisation and management
- the grouping of students
- leadership and responsibility
- extra-curricular activity
- the development of citizenship
- British Values
